IMPORTANT ANNOUNCEMENTS

1 This year we have discontinued our Chrysanthemum Cutting Department and it will not be possible for you to obtain any more Hill mum cuttings. In appreciation of the business many old customers have given us in the past, we will try to secure for them such cuttings as they may not be able to find for themselves.

2 Due to the fact that many of our customers at times have Rose houses ready for planting in January and February, before our grafted Rose plants are ready, we have obtained several thousand budded Rose plants in the more popular varieties.

3 In the last two years we have built and operated a modern wholesale pot plant range. So that many who have not visited this range may know, we are listing this year the plants that are available to you.

HILL FLORAL PRODUCTS COMPANY

GRAFTED ROSE PLANTS FOR 1938

R. M. S. QUEEN MARY

Henry A. Dreer, Inc.
U. S. Plant Patent No. 249, June 8, 1937

R. M. S. Queen Mary brings to the cut flower trade a much needed rose with a warmth of color such as we have in no other rose. It is a seedling rose of good size, not too large, with just enough petals for it to open perfectly. The color is a glorious combination of pure pink and rich glowing salmon, warmed by an amber glow arising from the orange base of the petals. It is a strong grower and is an unusually heavy producer for such an extra quality rose. Seventy per cent of our unpinched cut are roses of 18 inch length or more. From last Spring's planting we have cut from each plant up until the time of going to press, December 15th, eleven flowers. R. M. S. Queen Mary possibly is not a rose for a retail grower nor one who is growing only a few thousand roses, but for the progressive grower of any quantity of roses this variety should be included in his 1938 planting program.

Purchasers must sign agreement not to propagate stock of this variety except for their own use on a royalty basis.

PEERLESS

The Jos. H. Hill Co.
U. S. Plant Patent No. 157, Dec. 3, 1935

Peerless is a red sport of Better Times originating with the same company that disseminated that splendid variety. It has all the characteristics of both Better Times and Briarcliff except color, same foliage, same productiveness, and same culture. Peerless is a bright velvety scarlet carmine with long pointed buds. Due to its wonderful heritage the trade can now have a good keeping red rose that will hold its color.

Better Times fulfilled the need for a cerise pink rose—now Peerless is the answer for a sturdy, beautiful, velvety red.

SIGNET

The Montgomery Co., Inc.
U. S. Plant Patent No. 199, Sept. 29, 1936

Signet is a seedling of the Montgomery Co. resulting from the cross Premier x Talisman. It has a long pointed, deep pink bud opening to a softer, single toned, bright pink. Signet is no novelty but is a true clear pink and a free bloomer.

PRICES

GRAFTED PLANTS		SCIIONS

YELLOW DOT

The Jos. H. Hill Co.
U. S. Plant Patent Applied For

Yellow Dot is a semi-miniature seedling of the Jos. H. Hill Co.—a cross of Betsy Ross x Rapture. It does not grow in clusters as does Mrs. Finch but throws only one flower to a stem. It is a small rose, however, and is especially suitable for corsage work and table arrangements. Its size belies its petalage as Yellow Dot has 45 petals or more. Its color is deep orange shading to a creamy yellow as the flower opens.

GRAND CANARY

U. S. Cut Flower Co.
U. S. Plant Patent No. 130, Aug. 13, 1935

Grand Canary is a clear yellow sport of Token. It is a more vigorous grower than its parent and is a good producer. Has averaged since it has been on test slightly more than thirty flowers per plant.

BETTER TIMES

The Jos. H. Hill Co.
U. S. Plant Patent No. 23, August 23, 1932

We know rose growers who have half their place planted to Better Times. There are many good reasons for such confidence in this cerise pink sport of Briarcliff. The rose has eloquently spoken for itself in the past four years; there is nothing to add to its brilliant record. Plant Better Times and have them.

U. S. Plant Patent No. 144

LESTRA HIBBERD

The Jos. H. Hill Co.
U. S. Plant Patent No. 156, Dec. 3, 1935

Last Spring when we disseminated Lestra Hibberd we were not able to graft sufficient quantity to take care of all our orders and inquiries. This year we will have enough plants for we have been listening to the retail florists praise this rose and will be prepared. They like a rose that sells well and this, Lestra Hibberd does. It is a cross of Sweet Adeline x Joanna Hill, a dark yellow bud, the open bloom orange yellow tinted with creamy white. Hibberd is a strong and productive grower. See color plate on back cover.

SIGNORA

Jackson & Perkins Co.
U. S. Plant Patent No. 201, Oct. 13, 1936

Signora is a brownish-orange overlaid with pure orange rose that is truly distinctive. Imported from Italy it is a seedling that is proving profitable to those who grow it. Its glossy, holly-like foliage adds beauty to this already striking rose. Signora stretches easily from a pinch or cut and fancy lengths that bring in high returns are common.

HAPPY DAYS

Amling Rose Co.
U. S. Plant Patent No. 144, March 2, 1935

Happy Days, sport of Briarcliff and darker and more intense in color, was overlooked by too many growers last year. During the past year it has become immensely popular and from a grower's standpoint is an ideal variety. It is as easy to grow as Better Times and Briarcliff and brings good year round averages on the market. If you did not purchase Happy Days last year don't let another Spring get by without benching some. See color insert.

MRS. FRANKLIN D. ROOSEVELT

Traendly & Schenck
U. S. Plant Patent No. 80, Nov. 7, 1933

A fine yellow sport of Talisman. An excellent producer. Our large planting of this variety is near the top in returns per square foot. See color insert.

CHIEFTAIN

The Montgomery Co., Inc.
U. S. Plant Patent No. 150, Nov. 26, 1935

Chieftain is a bright cheery red rose — a cross of Hadley x Talisman. It sold well last year and for those growers who need a red rose Chieftain will adequately fill the need.

AMERICAN PRIDE

N. Grillo
U. S. Plant Patent No. 49, Dec. 20, 1932

Here is a white rose that is profitable to grow. American Pride is a sport of Grillo dale which in turn sported from Mme. Butterfly. We grow it exclusively for our white rose.
